5 Star Reviews

**Free or Subsidised Training for All**  
**Free 3D Printer for Every Learner**

Fast, Fun, Effective | Expert Led Training

## Who are the Skills Bootcamps for?

- Ideal for both beginners and experienced professionals
- Open to employed, self employed and job seekers
- Perfect for those looking to upskill or change direction
- Designed for anyone keen to boost career prospects

**Empower Your Business or Career with the Skills Your Industry Needs Now!**

# Bridging In-Demand Skills Gaps Today

Hands-on Skills Bootcamps that focus on the skills employers need across many industries.

60 hours of learning delivered over 10 days, combining onsite sessions at a location near you with flexible online study that works around your schedule.

## The course

### 3D Printer Training & Additive Manufacturing

Fundamentals of 3D printing and its applications in additive manufacturing, including hands-on training.

### Virtual Reality (VR), Augmented Reality (AR) & Digital Twinning

Immersive technologies for design, simulation, and monitoring.

### 3D Computer Aided Design (CAD)

Gain practical skills in 3D CAD through our immersive, hands-on training.

### AI, Cyber Security & Big Data

Safeguarding data while gaining new AI insights from large datasets.

### Industry 4.0

What is Industry 4.0? An introduction to digital transformation in manufacturing.

### Commercialising Additive Manufacturing

Exploring commercial opportunities in additive manufacturing and 3D CAD.

### Robotics & Automation

Introduction to robotic systems and their role in automation.

### Internet of Things (IoT) & Industrial IoT

An introduction to IoT and IIoT, focusing on how connected devices and systems enable smarter, more efficient operations.

## Funding

Training is fully funded for self employed and unemployed

If you're employed, your employer covers the full cost, so it's free to you. For employers, it's a valuable benefit to offer at no additional cost to staff.

Employer investment per employee:

Small organisations (under 250 employees): Total cost £360

Large organisations (250+ employees): Total cost £1,080.

Prices exclude VAT.

## Venues & Times

Blend of online and in-person courses across venues in Cheshire.
