SKILLS BOOTCAMPS

LABORATORY SKILLS FOR LABORATORY TECHNICIANS

This Skills Bootcamp is aimed at individuals looking to enter the science sector as Laboratory Technicians or Assistants, professionals looking to enhance their practical lab skills for career growth, and science graduates who need hands-on experience to secure their first job in the field.

Skills Bootcamp: Laboratory Skills for Laboratory Technicians will provide you with a range of in-demand skills that employers are looking for. Topics and skills covered include: Titration, Colorimetry, Data Analysis, Health and Safety, Equipment Calibration, Chromatographic Techniques, and Aseptic Techniques.

Want to learn more about what the course entails?

Join us at our upcoming Information, Advice, and Guidance event on **Monday 28th April**.

The course will be taught over 8 weeks, 1 day per week at our Winsford campus, and supported through additional online content.

All students who successfully complete the bootcamp will have a guaranteed interview with an employer at the end of the course.

Duration: Wednesday 7th May - Wednesday 25th June

Classes: Wednesday, 9.00am - 4.30pm

Location: Winsford campus

For more information and to register your attendance at the information event, please email: tscally@wvr.ac.uk.
