SKILLS BOOTCAMPS

SKILLS BOOTCAMP: DATA ANALYST

Warrington & Vale Royal College is offering places on a brand-new Skills Bootcamp commencing **Tuesday 17th June 2025 at its Winsford campus*, which is **FREE*** for eligible participants.**

This intensive 13-week bootcamp is designed to provide participants with the core technical and professional skills required to progress into roles such as Data Analyst, Business Analyst, or Analytics Consultant.

With part-time delivery to accommodate other commitments, the bootcamp offers a blend of practical, hands-on learning, and employability training. Participants will benefit from expert tuition, collaboration with employer partners, and access to modern facilities.

Creative & Digital
Skills Academy**

What does this Skills Bootcamp cover?

- Designing and developing relational databases using Microsoft Access.
- Understanding the structure, principles, and use of database tools.
- An introduction to Structured Query Language (SQL) and development of SQL skills.
- Applying database techniques to analyse and present data effectively
- Essential workplace skills such as data interpretation, organisation, and self-assessment.

Who is this Skills Bootcamp suitable for?

- Those who are unemployed but ready to return to work, with some digital skills or experience.
- Those who are employed in other sectors who wish to change career into data analysis or a related field.
- Those already working in a digital or data-related role who require upskilling to progress further.

What are the key benefits?

- Preparation for interviews with local employers.
- Delivered in partnership with industry professionals who co-deliver sessions on employability and interview preparation.
- Access to the latest digital technologies and training environments.
- Builds both technical expertise and confidence in data-related tasks.
